

## Recognized Canadian Electrical Product or Equipment Approval Marks

Certification marks and inspection labels are trusted stamps for product conformity. It is important to know if a mark is a recognized certification mark or inspection label in Canada.

Electrical products must meet Canadian national codes and standards and be certified by an SCC accredited certification body or inspected by an SCC accredited inspection body. The marks and labels below are recognized for use in Canada.

Certification Marks		
Certification Body	Marks	Notes
Bay Area Compliance Laboratories	 	
Bureau Veritas Consumer Products Services, Inc.		
Canadian Group for Approval Inc.		

<p>Canadian Standards Association</p>
