

Boilers and Pressure Vessels Act Fees Effective April 1st, 2015

- **1.** (1) The fee payable for the survey, approval and registration of a design of a boiler with a capacity
 - (a) not greater than 500 kW is \$82
 - (b) greater than 500 kW and not greater than 1,500 kW is \$163
 - (c) greater than 1,500 kW is \$326
- (2) The fee payable for the survey, approval and registration of a design of a pressure vessel having a shell diameter
 - (a) not greater than 0.6 m is \$82
 - (b) greater than 0.6 m and not greater than 0.9 m is \$163
 - (c) greater than 0.9 m is \$326
- (3) The fee payable for the survey, approval and registration of a design of a boiler or pressure vessel that is, in the opinion of the chief inspector, of a complex design is the greater of the fee set out in subsection (1) or (2), as the case may be, and
 - (a) for each full regular working day an inspector is required \$326
 - (b) for each hour or part of an hour an inspector is required if the inspector is required for part of a regular working day \$65
- (4) The fee payable for the survey, approval and registration of a design of a plant is, for each hour or part of an hour \$65
- (5) The fee payable for the survey, approval and registration of a design of fittings is
 - (a) for each size, type and pressure registered \$82
 - (b) for collective registration as provided for in subsection 6(3) \$163
 - (c) for a revision to or updating of a collective fitting registration \$54
- (6) If an approved design of a boiler, pressure vessel or fitting is revised, the fee payable for each hour or part of an hour an inspector is required to survey, approve and register the design is \$65
- (7) The fee payable for review and approval of a welding procedure under section 13 is, for each hour or part of an hour \$65
- (8) The fee payable for the review and approval of a quality control manual is, for each hour or part of an hour \$65
- 2. The fee payable for an installation permit is \$52

- 3. (1) The fee payable for the annual registration of a boiler having a power rating
 - (a) not greater than 500 kW is \$97
 - (b) greater than 500 kW and not greater than 5,000 kW is \$121
 - (c) greater than 5,000 kW and not greater than 10,000 kW is \$213
 - (d) greater than 10,000 kW and not greater than 15,000 kW is \$310
 - (e) greater than 15,000 kW and not greater than 20,000 kW is \$407
 - (f) greater than 20,000 kW and not greater than 25,000 kW is \$504
 - (g) greater than 25,000 kW and not greater than 35,000 kW is \$600
 - (h) greater than 35,000 kW is \$794
- (2) The fee payable for the annual registration of a pressure vessel having a shell diameter
 - (a) not greater than 0.6 m is \$82
 - (b) greater than 0.6 m and not greater than 0.9 m is \$121
 - (c) greater than 0.9 m is \$162
 - plus \$40 for each metre or part of a metre over 1 metre
- (3) The fee payable for a certificate of inspection is nil
- **4.** The fee payable for testing fittings under subsection 6(6), adjusting safety valves under subsection 25(2) or conducting a shop inspection or special inspection on
 - (a) a regular working day from 8:30 a.m. to 5 p.m., for each hour or part of an hour is \$65
 - (b) a regular working day before 8:30 a.m., after 5 p.m. or for more than 7.5 hours in the day or on a Saturday, for each hour or part of an hour is \$98
 - (c) a holiday, for each hour or part of an hour is \$131
- **5.** (1) The following fees are payable for the examination required for the following certificates of qualification or for a certificate issued under section 45:
 - (a) Class 1 operating engineer's certificate of qualification,
 - (i) if the examination is written at one sitting: \$261
 - (ii) if all papers of an examination are not written at one sitting, for each paper: \$33
 - (b) Class 2 operating engineer's certificate of qualification,
 - (i) if the examination is written at one sitting: \$196
 - (ii) if all papers of an examination are not written at one sitting, for each paper: \$33
 - (c) Class 3 operating engineer's certificate of qualification,
 - (i) if the examination is written at one sitting: \$131
 - (ii) if all papers of an examination are not written at one sitting, for each paper: \$33

- (d) Class 4 operating engineer's certificate of qualification,
 - (i) if the examination is written at one sitting: \$65
 - (ii) if all papers of an examination are not written at one sitting, for each paper: \$33
- (e) Class 5 operating engineer's certificate of qualification: \$44
- (2) The fee payable for a temporary certificate of qualification is \$54
- (3) The following fee is payable for the renewal of a certificate of qualification under section 32:
 - (a) if the application to renew the certificate is made before, on or within one year after the day the certificate expires: \$82
 - (b) if the application to renew the certificate is made after one year after the day the certificate expires: \$82
 - plus \$82 for each three year period or part of a three year period that has elapsed since the certificate expired
- (4) The following fees are payable for a certificate of qualification issued under subsection 44(1):
 - (a) Class 1: \$131
 - (b) Class 2: \$98
 - (c) Class 3: \$65
 - (d) Class 4: \$44
 - (e) Class 5: \$22
- **6.** (1) The fee payable for a Class A or Class B qualification test required by paragraph 57(1)(b) or 58(1)(b), respectively, or for a qualification test given under section 60, 61 or 63
 - (a) if material is supplied by the chief inspector or an inspector is \$109
 - (b) if material is supplied by the candidate is \$54
- (2) The fee payable for a welding performance qualification card issued under subsection 50(2) of the Act is \$54
- 7. (1) The fee payable for a search of official records is \$22
- (2) The fee payable for a duplicate certificate of inspection, a duplicate certificate of qualification, a duplicate welding performance qualification card or a photocopy or certified copy of a report or other document is \$22
- (3) The fee payable for a copy of a design that has been registered is the actual cost of the copy.
