SAFE WORK PRACTICE - FUELING EQUIPMENT

General

To prevent personal injury or property damage while fuelling equipment.

Potential Safety Hazards

- Fire / explosion
- Spills
- Slips/falls

Environmental Concerns

Spills

Environmental Precautions

- Spill kit on fuel truck
- Spill Kit on all mobile equipment
- Designated fuel person

Safe Work Practices

SPECIAL REQUIRED PPE: Gloves, Safety Glasses

Do:

- Ensure stationary storage fuel tanks are vented and kept clear of buildings, and if not buried, should be grounded.
- Carry gasoline in a closed container, which is adequately vented.
- Inspect the tanks daily for leaks and ensure that the static chain is attached.
- Keep the metal fill nozzle in contact with the lip of the tank to eliminate any static accumulation.
- Take care not to over fill any equipment tanks
- Use three point system when climbing on or off equipment

Do Not:

- Smoke while fuelling is in progress.
- Allow open fires, welding, etc. in the fuelling zones.
- · Fuel equipment before it is shut off.

- Overfill any equipment fuel tanks.
- · Climb on equipment until it has been shut off.
- Leave fuel pumping unattended

Work on equipment over 3 meters without proper fall protection

Procedures

- 1. When approaching equipment for refueling ensure both the Swamper and Operator see you and signal you to enter area.
- 2. Drive close to equipment to be fuelled.
- 3. Shut off fuel truck if not required to run pump.
- 4. Have Operator shut off equipment and set attachment to rest.
- 5. Insure proper grounding of fuel truck and equipment.
- 6. Turn on fuel pump and remove nozzle.
- 7. If helper is available climb onto equip and have some one hand you nozzle.
- 8. If no one around attach rope to nozzle climb onto equipment and pull nozzle up with rope.
- 9. Remove fuel cap, insert nozzle and squeeze trigger, wait till tank is full release trigger.
- 10. Ether hand nozzle down or lower with rope.

Climb off equipment, shut off pump store nozzle.

Responsibilities

Supervisors/Foremen:

- Ensure materials, equipment and manpower are in place to comply with these safe work practices and job procedure
- Address all safety concerns that may arise while performing this procedure.
- Ensure all required permits are in place

Employees:

- Follow all safe work practices and job procedure.
- Wear proper fall protection equipment when necessary.

Report any incidents, accidents or near misses to supervisor
